

OEM Solutions at Ritter

Partner with us for your premium laboratory consumables. We specialize in creating top-quality laboratory consumables that align perfectly with your brand's vision. Our OEM solutions offer the precision, reliability, and customization that your brand deserves.

Ritter GmbH, a leader in precision plastic manufacturing, has been a part of Avantor since 2021. Specializing in tailored solutions, Ritter ensures seamless integration of every component.

Why Choose Ritter?

- Superior Quality with Cost-effective Manufacturing

Our German-engineered consumables meet the highest industry standards, ensuring reliability and precision in every product, without compromising on affordability.

- One-stop Customized Solution

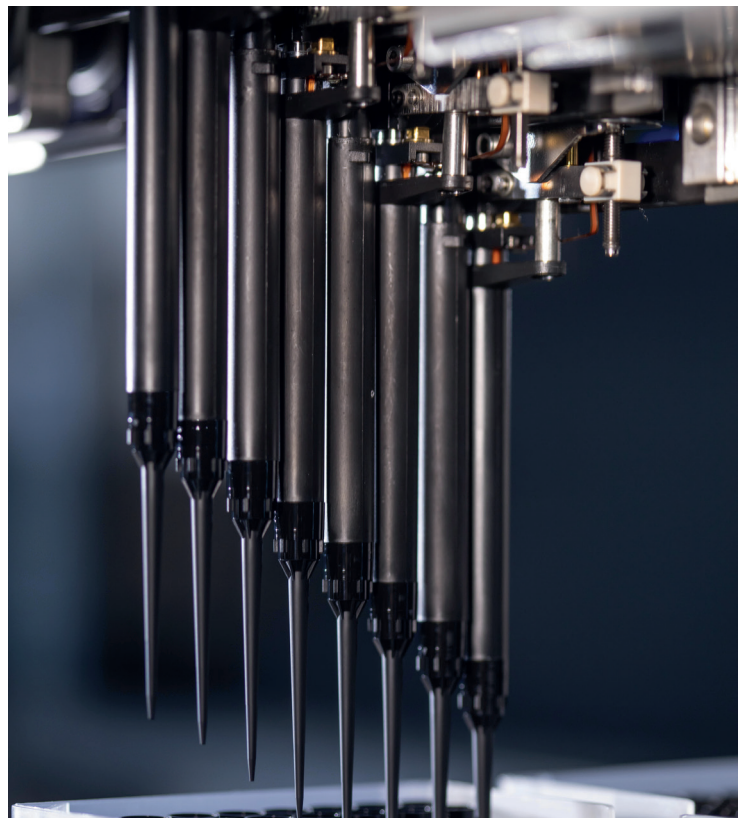

We offer end-to-end OEM services, from design to production, ensuring a seamless process tailored to your needs.

- Global Reach, Local Expertise

With worldwide distribution and deep local market knowledge, we ensure your products meet regional requirements and global standards.

- Tailored Brand Recognition

Our customizable solutions enhance your brand identity, providing distinctive products that stand out in competitive markets.
